

Be Prepared to Be Blown Away!

The wait is over! The 2017 Indianapolis Monthly Dream Home is ready to be unveiled! Tours begin May 6th through May 21st for the first-ever Dream Home remodel project!

Why go? Because the results of this whole-home remodel by GuyCo® Homes and Remodeling are incredible! The 1980s Frank Lloyd Wright-style home has been thoroughly updated and modernized. The remodeled spaces are all fully functional and flow together beautifully—and that includes the 3,425-square-foot addition!

The “before” and “after” transformation will simply blow you away! The Dream Home showcases many unusual features and the latest trends to inspire you. Here are just a few:

- Custom-built 10-foot-tall x 4-foot-wide doors that open the great room to the fantastic views of Williams Creek and the wooded lot
- Modern custom metal staircases
- Magnificent 18-foot kitchen island with black concrete countertop
- Clever use of a custom-fabricated 8-foot-wide barn door to hide the laundry room
- Amazing indoor recreational areas: basketball court, game room, kids play room

So, what’s stopping you from having the home of your dreams? Heard one too many remodeling horror stories? Don’t let that stop you. Remodeling can be an exciting, creative partnership when you work with GuyCo. Here are some other reasons to consider remodeling:

- A home customized to complement your lifestyle and tastes will make life easier and more enjoyable.
- We are seeing updated, modern homes selling quicker—and for more money—than tired, outdated homes.
- If you update while living in your home, rather than updating to sell, you’ll benefit from all the improvements you’ve made to your living space.

Let GuyCo help you create the home you’ve always dreamed of. There’s a reason homeowners trust GuyCo Homes and Remodeling: Customer satisfaction is the company’s first priority. And GuyCo delivers!

If you’re looking for a building and remodeling team you can trust, give them a call: (317) 272-2236 or visit guycohomes.com.
